

## Call for Entries to the Program 2019

Project proposals and portfolios for the exhibition program in the Kunstpavillon and in the Neue Galerie of the Tiroler Künstler\*schaft in Innsbruck

### Programming

The exhibition program for the Kunstpavillon and the Neue Galerie is put together in the main by a jury of art professionals, selecting from submissions received in response to an open call. The call is sent to members of the association as well as to national and international artists and curators. The jury of professionals is made up of members of the board of the association and the curator and managing director.

### Association

The Tiroler Künstler\*schaft regards itself as a forum for contemporary art; as an association of artists, it promotes the freedom and independence of art. The program encompasses all forms of contemporary artistic expression and represents a forum characterized by its presentation of experimental, cross-disciplinary and sometimes controversial projects within a professional exhibition context.

The association of artists, which has been in existence since 1946, runs an international program of exhibitions in the rooms of the Neue Galerie in the Hofburg Innsbruck, as well as the Kunstpavillon in the Hofgarten. Since 2003, Künstlerhaus Büchsenhausen has provided the framework to our International Fellowship Program for Art and Theory (call for entries in autumn 2018), for which four individuals are nominated each year. In addition to series of events, lectures and dialogues within the regional art scene, the Tiroler Künstler\*schaft represents the interests of those working in creative art in the Tyrol. As such, it is also engaged in current cultural-political issues.

You will find information about the current and past exhibition program at [www.kuenstlerschaft.at](http://www.kuenstlerschaft.at). Four exhibitions are envisaged in both the Kunstpavillon and the Neue Galerie in 2019.

### Exhibition Sites

#### Kunstpavillon:

The Kunstpavillon is located a few minutes' walk from the city centre in the Kleiner Hofgarten. The building was constructed in 1842 as the summerhouse of the regional governor. In 1950 it was renovated into a classical gallery lit from above. The space is approximately 175 square metres large.

#### Neue Galerie:

Located on the ground floor of the Hofburg, at the entry to Innsbruck's old city centre, the Neue Galerie comprises approximately 95 square metres of exhibition space. The historical arches have been general overhauled. In contrast to the Kunstpavillon, it is easy to make the space dark for projections.

Ground plans and images are available to download from our homepage <http://www.kuenstlerschaft.at/en/association/locations-and-plans/>
